

# Configure District VPN on iPad

1. Tap **Settings**.

2. Tap **General** in the left pane. Tap **Network**.

3. Tap **VPN**.

4. Tap **Add VPN Configuration**.

5. Tap **IPSec**. Then enter **MCCCD** for Description, [secdovpn.maricopa.edu](https://secdovpn.maricopa.edu) for Server, and your **Maricopa Domain (AD) username** for Account. The **Group Name** and **Secret** credentials will be given to you by District Account services when you are assigned VPN access. Tap **Save**.

6. You will see **MCCCD** as a custom VPN entry when successful.

**\*NOTE\*** - This VPN configuration ONLY works from outside our District firewall.
