

Configure Maricopa Directory on iPad

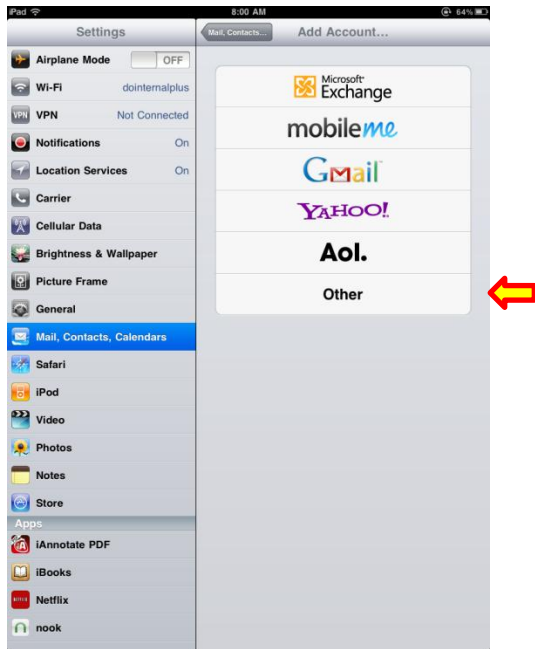

1. Tap **Settings**.

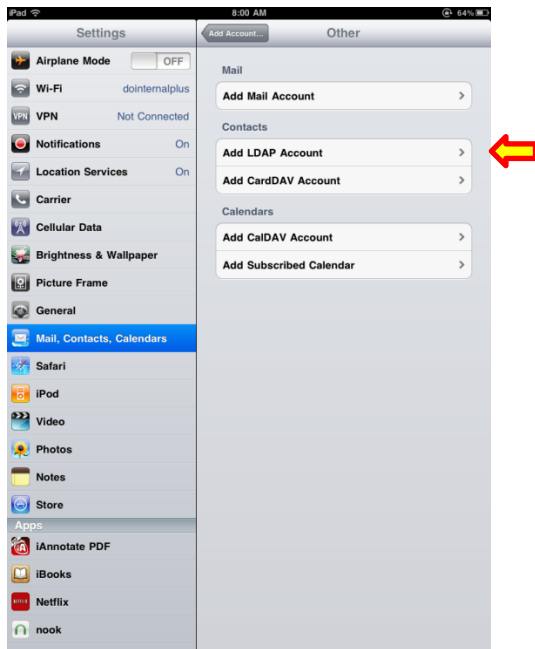

2. Tap **Mail, Contacts, Calendars** on the left pane. Then tap **Add Account...**

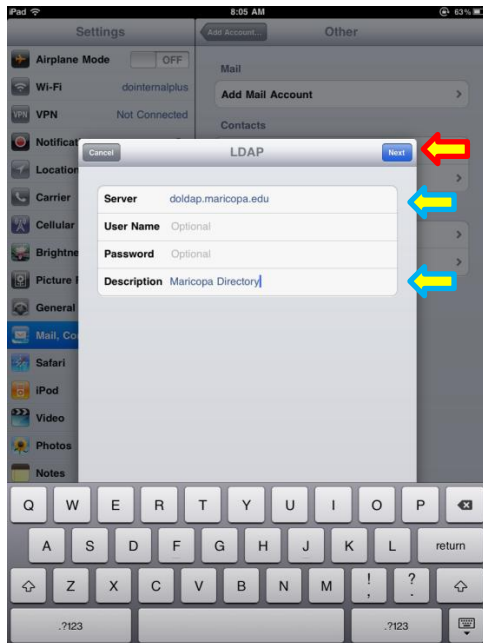

3. Tap **Other**.

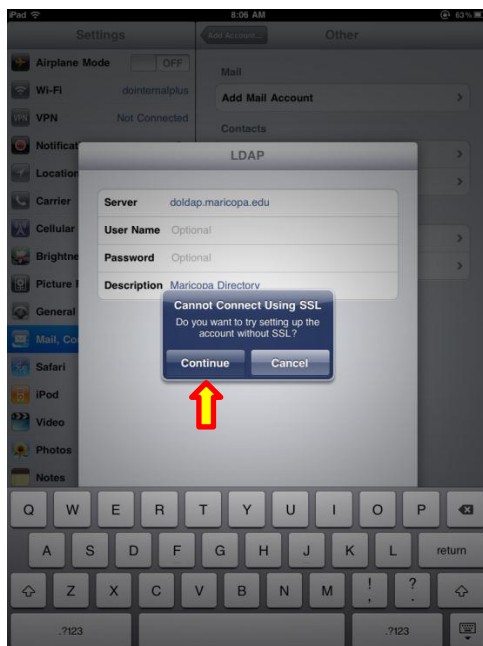

4. Tap **Add LDAP Account**.

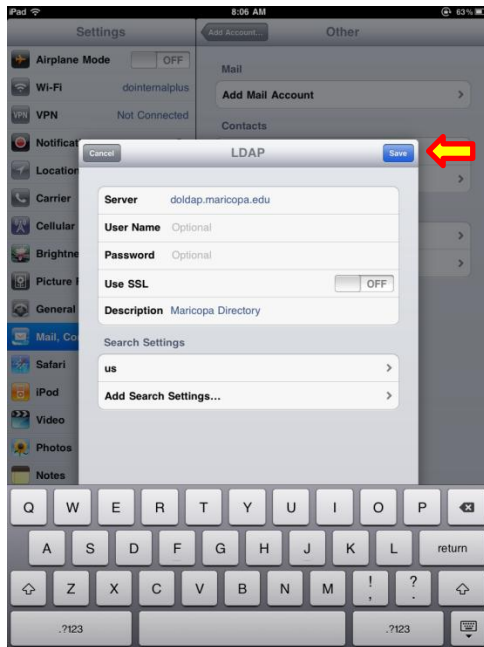

5. Enter doldap.maricopa.edu for the Server and [Maricopa Directory](#) for the Description. Do not enter anything under User Name or Password. Tap **Next**.

6. The system will attempt to connect to our directory server. If you get an SSL alert, tap **Continue**.

7. You will see the following screen if you are successful. Tap **Save**.

You can now start typing a recipient in an email and the iPad will do a lookup against our Maricopa Directory. You can also browse names in the Contacts app (Tap Groups, then Maricopa Directory).
